The candidate will be responsible for:

- » Participate in quantitative financial modelling
- » Understand client businesses and engage in strategic development
- » Strengthen subject matter expertise on an ongoing basis
- » Maintain and develop strong and long-term working relationships with clients
- » Work within or lead a team and ensure effective project work

### Minimum Requirements

- » Between 2-5 years of experience in the Financial Services Industry
- » Understanding of financial products
- » Experience with IRB regulation and PD/LGD modelling
- » Knowledge of financial mathematics
- » Strong interpersonal and presentation skills
- » Natural curiosity and an ability to assimilate new skills quickly
- » Ambition and initiative
